### [Slow Scan TV from International Space Station Dec 5-6](#)

The MAI-75 SSTV system in the Russian Service Module will be put through some extended testing.

[AMSAT UK](#)

### [What the heck is the ARRL Board thinking?](#)

In effect, this is a gag order on a director if he disagrees with a Board decision.

[KB6NU](#)

### [KX2 firmware upgrade to increase power output](#)

The latest KX2 field-test firmware allows power output to be set as high as 12 watts.

[W2LJ](#)

### [Success with the new AO-91 FM satellite](#)

I did an AO-91 pass at 2 AM Sunday morning with the Kenwood TH-D72A. It was very different. It sounded crystal clear just like a local repeater.
